IMPRESSIONS OF PARTICIPANTS

It was a dream -come-true and also both a privilege and honour to be the participants of the 6th Remote Sensing and Geographic Information System course under CSSTEAP in the beautiful campus of IIRS Dehradun. It was indeed a privilege as all of us had a wide-spectrum of opportunities to learn, travel and know more about India and at the same time gain knowledge on the advance technology of RS and GIS and also an honour as we were able to represent our countries to this avenue.

The knowledge and skills imparted to us both by the experienced and highly qualified faculty members of IIRS and the eminent guest scientists and professionals from India and abroad were very enriching and enlightening.

The educational visits were incredible giving an opportunity to understand Space Technology better through live demonstrations, discussions and lectures by the eminent scientists.

We felt the warmth of friendliness, hospitality and courtesy of India and its people (for which India is famous) throughout our 9 months stay. We got enough opportunities to represent our countries, traditions and cultures by means of a number of cultural evenings and get together organised by IIRS authorities.

During our 9 months stay we learnt a lot about the rich and diverse culture of India. Our group was like a global family of 20 people from different countries of Asia-Pacific region. We immensely enjoyed staying in newly constructed International Hostel well furnished and equipped with all modern amenities.

With heavy hearts while we bid farewell we would like to express our sincere thanks to the authorities of United Nations ; Govt. of India ; Govt of our countries ; Chairman ISRO; Ex. Director and present director, CSSTEAP; Director NRSA; Dean, IIRS; Course Coordinator ; Heads of our organizations; Faculty of 6th RS & GIS course and the administrative staff for providing us opportunity to participate in the course and their support, guidance and help rendered to us during our stay in Dehradun. Special thanks are due to the Vice-Chancellor, Andhra University for giving recognition to our studies. We would like to thank all those who worked tirelessly in the front and behind the scene in making our stay pleasant, comfortable and academically successful.

We look forward for continued association with CSSTEAP and IIRS in our future endeavors.
